

RABIN KUMAR MAHATO

DevOps Engineer | AWS | Azure | Terraform | Kubernetes | Agentic AI

+91 8102981953 | ryanmahato8@gmail.com | [LinkedIn](#) | Bengaluru, Karnataka, India

PROFESSIONAL SUMMARY

DevOps Engineer with 3.5 years of experience in cloud infrastructure, CI/CD automation, and application deployments across AWS and Azure. Proficient in Azure DevOps, Git, Terraform, Docker, Kubernetes (AKS/EKS), and scripting with PowerShell, Bash, and Python. Experienced in Infrastructure as Code (IaC), Agile methodologies, and building scalable, secure, and reliable deployment pipelines.

WORK EXPERIENCE

Cloud Engineer I

HP Inc. | Oct 2023 – Present | Bengaluru, Karnataka, India

GenAI Platform Team (2024 – Present)

- Support and operate an enterprise GenAI platform hosting **200+ AI model endpoints consumed by 50+ engineering teams across the organization.**
 - Manage secure AI infrastructure including model gateways, AI/ML training environments, agent-building services, and cloud-native AI platforms.
 - Administer Kubernetes environments running **100+ containerized workloads** across AWS and Azure.
 - Provision and maintain cloud infrastructure using Terraform and Infrastructure-as-Code (IaC) best practices.
 - Enable deployment of AI applications, APIs, and cloud-native services while enforcing enterprise security and governance controls.
 - Implement observability solutions using CloudWatch, Azure Monitor, Grafana, Prometheus, and Log Analytics for platform reliability and performance monitoring.
 - Automate operational processes using Python, PowerShell, Ansible, and Azure Runbooks, reducing manual effort and improving operational efficiency.
 - Contribute to CI/CD automation using Jenkins, GitHub Actions, and Azure DevOps.
 - Implement IAM, RBAC, secrets management, API security controls, and cloud governance policies.
 - Participate in incident response, root cause analysis, disaster recovery testing, and platform reliability initiatives.
- Engineered a Jenkins CI/CD Groovy pipeline for automated PR validation - covering build, DB changes, Unit Tests, and Sonar Incremental Analysis - lifting main build success rate by 70% and accelerating delivery to QA

Cloud Platform Operations Team (2023 – 2024)

- Supported enterprise multi-cloud environments across AWS, Azure, and GCP for internal engineering teams.
- Provisioned and managed cloud accounts, infrastructure resources, access controls, and governance configurations.
- Supported DNS, networking, IAM, and cloud platform services to ensure secure and reliable operations.
- Performed infrastructure maintenance, patch management, production support, incident resolution, and service restoration activities.
- Collaborated with engineering and platform teams to onboard workloads and implement cloud best practices.

Senior Assistant, Service Delivery Coordinator

EIT Services India Pvt. Ltd. | Sep 2022 – Oct 2023 | Remote

- Supported enterprise public cloud platforms across AWS, Azure, and GCP, providing operational support for cloud infrastructure and services.
- Provisioned cloud accounts, implemented governance controls, managed access requests, and supported cloud onboarding activities.
- Assisted with IAM, VPC/networking, DNS, compute services, and cloud platform troubleshooting.
- Performed patch management, production support, incident management, service restoration, and disaster recovery activities.
- Collaborated with L3/L4 engineering teams to troubleshoot issues and maintain platform stability for internal customers.

* Created and deployed lightweight Docker images across DEV, NGT, QA, UAT, and PROD; enhanced developer productivity by 25% via isolated Dockerised dev environments for regression testing.

SKILLS

AI & Platform Engineering: AWS Bedrock, Azure OpenAI, AI Model Endpoint Management, Prompt Engineering, AI Platform Operations, RAG Concepts, Agentic AI Concepts.

Cloud Platforms: Microsoft Azure (Azure DevOps, Virtual Machines, AKS, Azure Monitor, Log Analytics, Key Vault), **AWS** (EC2, IAM, VPC, S3, CloudWatch)

DevOps & CI/CD: Azure DevOps, Jenkins, GitHub Actions, Git, ArgoCD.

Containers & Orchestration: Docker, Kubernetes (AKS/EKS), Helm.

Infrastructure as Code: Terraform, CloudFormation, Ansible.

Monitoring & Logging: Azure Monitor, CloudWatch, Grafana, Prometheus, Log Analytics.

Security: Azure AD, IAM, RBAC, Key Vault, Secrets Management.

Scripting & Automation: Python, PowerShell, Bash.

Methodologies & Tools: Agile, SDLC, Jira, Confluence, SonarQube.

EDUCATION

Master of Computer Applications (MCA) AI/ML

Chandigarh University, Mohali | Jan. 2023 – Jan 2025 | CGPA: 6.85

Bachelor of Computer Applications (BCA) Cloud Computing

Guru Nanak College, Dhanbad | Sept. 2019 – Sept 2022 | CGPA: 7.27

CERTIFICATIONS

- AWS Cloud practitioner
- Microsoft Certified: Azure Fundamentals (AZ-900)
