

# RABIN KUMAR MAHATO

AI Platform and Cloud Engineer | AWS | Azure | Terraform | Kubernetes | Agentic AI  
+91 8102981953 | ryanmahato8@gmail.com | [LinkedIn](#) | Bengaluru, Karnataka, India

## PROFESSIONAL SUMMARY

---

AI Platform and Cloud Engineer with **4+ years of experience** building and governing cloud-native platforms for **Agentic AI systems, AI/ML workloads, and enterprise-scale CI/CD delivery**. Specialised in **Azure Foundry, AWS bedrock, IaC automation (Terraform/Terragrunt), GitOps, Kubernetes (EKS/AKS), and Responsible AI production readiness** using **Containerization and Orchestration Technologies**. Focused on building **reusable “golden path” platform capabilities** — governed self-service pipelines, zero-touch delivery models, and operational baselines that reduce risk, improve team autonomy, and scale across projects.

## WORK EXPERIENCE

---

### Cloud Engineer II

**HP Inc.** | Aug. 2026 – Present | Bengaluru, Karnataka, India

- Designed and implemented secure AI service integrations using Azure AI Foundry, Azure OpenAI, AWS Bedrock, and API Gateway, **enforcing zero-trust access, identity-based controls, and operational guardrails** for production AI workloads.
- Automated deployment of **AI/ML and containerized workloads** to **AKS** and **EKS** using Azure DevOps and CI/CD pipelines, reducing deployment time, minimizing manual intervention, and improving release consistency.
- Built a self-service **hackathon** infrastructure platform using Streamlit and automated provisioning workflows, enabling isolated project environments in minutes instead of days and accelerating onboarding for engineering teams.

### Cloud Engineer I

**HP Inc.** | Oct. 2023 – July 2026 | Bengaluru, Karnataka, India

- Manage and support enterprise cloud infrastructure across **AWS and Azure**, ensuring secure, scalable, and reliable platform operations.
- Administer **Kubernetes** environments hosting production workloads across AWS and Azure.
- Developed reusable **Terraform and Terragrunt modules** for **AWS** and **Azure** to standardize infrastructure and enable CI/CD-driven provisioning with no local runs.
- Deploy and support **cloud-native applications, APIs, and platform services** while enforcing **enterprise security and governance standards**.
- Monitor infrastructure health and performance using **CloudWatch, Azure Monitor, Grafana, Prometheus, and Log Analytics**.
- Automate operational tasks using **Python, PowerShell, Ansible, and Azure Runbooks** to improve operational efficiency.
- Support CI/CD pipelines using **Jenkins, GitHub Actions, and Azure DevOps**.
- Implement **IAM, RBAC, secrets management, and cloud security best practices**.
- Perform **production support, incident management, root cause analysis, and disaster recovery testing**.
- Advised and mentored engineering teams on secure AI service adoption, deployment best practices, and operational readiness across dev/QA/production environments; collaborated with security and networking to harden platform posture.

## Senior Assistant, Service Delivery Coordinator

EIT Services India Pvt. Ltd. | Sep 2022 – Oct 2023 | Remote

- Supported enterprise **multi-cloud environments** across AWS, Azure, and GCP.
- Provisioned **cloud accounts, networking resources, IAM roles**, and governance configurations.
- Supported **DNS, VPC/networking, cloud infrastructure, and platform** services.
- Performed infrastructure maintenance, **patch management, production support, incident resolution**, and **service restoration**.
- Worked closely with engineering teams to implement cloud best practices and maintain secure cloud environments.

## SKILLS

---

**Cloud Platforms:** AWS (EC2, IAM, VPC, S3, API Gateway, Lambda, ECS/Fargate, CloudWatch, Bedrock), Azure (AKS, Azure OpenAI, Azure Monitor, Log Analytics, Key Vault, Azure DevOps).

**Infrastructure & Cloud:** Cloud Infrastructure, Application Hosting, Cloud Operations, Infrastructure Support, Production Support, Incident Management, Patch Management.

**Networking:** VPC, DNS, TCP/IP, VPN Concepts, Route Tables, Network Security Groups (NSGs), Firewalls.

**Observability:** CloudWatch, Azure Monitor, Log Analytics, Grafana, Prometheus.

**Security:** IAM, RBAC, Secrets Management, KMS, Key Vault, VPC Security.

**DevOps & Containers:** Kubernetes, Docker, Jenkins, GitHub Actions, Azure DevOps.

**Infrastructure as Code:** Terraform, CloudFormation, Ansible, Azure Runbooks.

**Programming:** Python, PowerShell, Bash, JavaScript.

## EDUCATION

---

### Master of Computer Applications (MCA) AI/ML

Chandigarh University, Mohali | Jan. 2023 – Jan 2025 | CGPA: 6.85

### Bachelor of Computer Applications (BCA) Cloud Computing

Guru Nanak College, Dhanbad | Sept. 2019 – Sept 2022 | CGPA: 7.27

## CERTIFICATIONS

---

- AWS Cloud practitioner
- Microsoft Certified: Azure Fundamentals (AZ-900)
